

CREATION DEVICE

After School Enrichment

3:45-4:30 Wednesday Free

January 16 : IMOVIE

We will splice and edit footage, apply real time filter effects and explore more features in this powerful creation app.

January 23: Garage Band

We will explore the touch instruments and the full-featured recording studio to create original audio content.

January 30: Tayasui Sketch

We will explore the drawing tools and bring out our inner artist using this amazing creation app.

February 6: Swift Playgrounds

Swift Playgrounds is a revolutionary app for iPad that makes it fun to learn and experiment with code.

February 13: Tinkercad

Tinkercad is a free app. We will use it to create 3D designs.

February 20: WWF Free Rivers

We will explore an augmented reality map of the world's rivers-and some of the biggest threats and opportunities they face.
